Registration #: CSU-F15-147
Lab Report #: 1
Dated: 20-04-2018
Submitted To: Sir: Usman Ahmed

The University of Lahore, Islamabad Campus
Department of Computer Science.

Experiment # 01

Installation Of Ubuntu

Objective

Perform Lab Task Of Operating System Class.

Software Tool

1. USB
2. Rufus
3. Ubuntu ISO Image

1 Theory

Using a tool called as Rufus, I made my USB a bootable one for the Ubuntu Operating System to complete the lab task for the Operating system lab. I used ISO image of the Ubuntu OS to make USB bootable. Keeping Windows 8 along with this Ubuntu, I installed Ubuntu on separate drive so now I have 2 OS ready to use on my laptop.

2 Task
